A budget being a quantitative expression of a financial plan for a defined period of time, helps you plan the volume of expenses, savings as well as expected income, assets and liabilities for the period. Loading Disqus Comments
Savings only maintains your money and in some cases subtly degenerates it. Hello, What country are you in? Whether you have one income, multiple income streams or you are dependent on government grants; you need to make plans properly. This includes living within your means, paying down debt, saving for emergencies now and long-term crises in the future.
