The Inuit have a rate of suicide four times that than the rest of Canada, and the majority are men who are finding it extremely difficult to adapt to the change. Format: Hardcover. This is the first book to weave together the strands of cultural, biological and industrial extinctions into a meditation on the way we live beside nature in the modern world.

This sobering yet illuminating book looks beyond natural devastation to examine "why" and "what's next". From the ruined tin mines of Cornwall and the abandoned whaling stations of South Georgia to the Inuit camps of the Arctic and the white heart of Antarctica, she probes the critical relationship between human activities and environmental collapse.
